MAXIMIZE YOUR UNDERGRADUATE RESEARCH EXPERIENCE

with the Undergraduate Research Workshop Series in 572 Bond Life Sciences Center!

4:00 – 5:00 pm, ALL majors welcome!

SEPTEMBER 9: Undergraduate Research 101 - Getting Started

OCTOBER 14: The Faculty Perspective - Faculty Mentor Panel

NOVEMBER 18: Summer Research Internships On and Off Campus - Application Tips and Tricks

JANUARY 27: Including Your Research on Your Resume

FEBRUARY 17: Writing a Research Abstract

MARCH 10: Creating and Designing a Successful Research Poster

APRIL 28: Making the Most of Your Summer Research Experience

Beyond the Columns

Tuesday, September 16
4:30-5:30 pm, Bond Life Sciences Center

A poster session for undergraduates to present their summer research projects conducted off-campus!

Beyond the Columns is an annual event for MU undergraduates to showcase their summer research projects to the campus community. Students who conducted research at another institution, abroad, or at a field site are encouraged to participate. This is also a GREAT opportunity to invite your friends, faculty instructors & advisors, and faculty who will be writing you letters of recommendation to see what you did over the summer.

Please contact the Office of Undergraduate Research by Friday, September 5th to participate. We will provide poster boards, push pins, and a name tag. You will need to provide your poster. Poster boards will be 45”x45”. Please confirm with your summer mentor that you have their permission to present your project at MU in September.

If you would like to take part in this event, please contact Mike Cohen in room 150B in the Bond Life Sciences Center, (882-4818) or CohenME@missouri.edu.
National Science Foundation’s Graduate Research Fellowship Program

This national fellowship provides three years of financial support ($32,000 per year) plus tuition waiver for beginning graduate study leading to a research-based degree in biological sciences, computer sciences, chemistry, engineering, geosciences, information science, social sciences, mathematics, psychology, physics, astronomy or STEM Education. Dr. Robin Walker will host informational sessions for MU students interested in applying to the program.

GRFP Eligibility & How-to-Apply Sessions

Social Science Students
Mon, Sept 15, 4-5 PM
2205 B MU Student Center

STEM Students
Mon, Sept 15, 5-6 PM
2205 B MU Student Center

College of Engineering Students
Tues, Sept 23, 4-5 PM
Ketcham Auditorium

Students can RSVP at https://www.surveymonkey.com/s/Attend-GRFP-Session

Spring 2015 Undergraduate Research & Creative Achievements Forum
Tuesday, April 21st

Get involved in MU’s life sciences community!
Organized and run by fellow students, SURLS hosts workshops for posters and proposals, provides opportunities to meet with guest speakers, and more. SURLS will have meetings and events throughout the semester, so be sure to attend the first meeting on Tuesday, September 9th from 6-7pm in Room 572 in the Bond Life Sciences Center!

For more information, contact Kevin Bird at kabra5@mail.missouri.edu
The official Office of Undergraduate Research newsletter, The Connection, provides undergraduate researchers and faculty mentors with information regarding research-related events and workshops, as well as featured faculty mentors and student research projects at the University of Missouri. The Connection is published on the first of every month.

The publication’s goal is to connect undergraduate researchers from science and non-science disciplines across MU’s campus. Check out the newsletter’s monthly featured research Web sites and fellowships! Readers are welcome and encouraged to submit story tips and ideas. If you want to receive an electronic copy of the newsletter each month, e-mail Joey Fening (jwfvyc@mail.missouri.edu) at the Office of Undergraduate Research.

Be sure to keep up with us online. We will be posting events and updates regularly on social media.
